

'Our Aspire Intent for You'

At Aspire, we know many of you have had challenges in your life, including in education. Here, our aim is to help you overcome these challenges or support you to develop **strategies** and **tools** to help you overcome them at a pace that is right for you. We know school may be a struggle for some of you, but we will **persevere**, working alongside you, to ensure you can **achieve your potential**.

At Aspire, our intent is that you feel **safe, listened to, heard and accepted**. We want you to feel included, a part of our community. We know that your learning best takes place when you feel **happy**, safe and with a **sense of belonging**. We will do all we can to **care** for, and promote, **resilience** around your physical, emotional and mental **wellbeing** so that you have **solid foundations** from which to **progress**.

You will have the chance to experience **joy** and **wonder**, as well as **academic learning**, through opportunities like **enrichment, trips** and **visits, extra-curricular sessions** and off-site activities.

We also look for ways to involve you in the local **community**, experience **other cultures**, including those abroad, and **respect diversity and British Values**.

School, for us and you, is more than just learning in a classroom.

We recognise that you are all different and we want to **celebrate** and nurture these **differences**. We pride ourselves on being **inclusive** and looking at what works for you as an individual. We know that you all have your own unique **strengths, skills** and **qualities** and our intent is to help you make the best of these, enabling you to make a **positive contribution to your communities** and your own future.

When you leave us, our intent is that you to feel prepared for the **next steps** in your journey, whether that is **college, an apprenticeship**, volunteering or **transition back to mainstream schools**. Your curriculum provides you with the foundations for whatever **future path** you decide upon. We will ensure the **advice and guidance** given to you about your future is targeted at your needs and enables you to make informed decisions. We will **support your development** in the skills needed to flourish in a new environment, such as **resilience, independence, confidence** and **self-worth**.

“Inclusive, accessible and re-engaging for all”
